About the charity

Diagrama Foundation is a charity dedicated to supporting children, families and adults at risk of social exclusion. Our aim is to prevent people from becoming socially excluded and to reintegrate those that have by undertaking research into best practice and, based on this, developing programmes and centres to achieve this. We have a range of services in the UK including adoption, fostering, therapeutic support, education and residential services for young people, for adults with learning disabilities and the elderly.

About Diagrama Fostering and Adoption

Diagrama's Fostering and Adoption services are small enough to offer a personalised service, while benefiting from the sound backing of a wider international foundation. We take a child-centred approach to everything we do and believe in investing in the personal and professional development of our team to enable them to achieve excellent outcomes for the children we work with.

Both agencies are rated GOOD by Ofsted and, as a charity, our funds are directed straight back into ensuring we offer the best possible service for the children. We are fast establishing an impressive reputation as a progressive, caring and child-focused fostering and adoption agency, providing excellent support. We put children at the heart of everything we do and every decision we make.

We work with many local authorities across London and the south east. Some of our team are community-based and we also have offices based in Croydon and Medway.

Our adoption and fostering services were established to ensure adopters and foster carers who had been working with Cabrini Children's Society continued to receive support when the society ceased operation in 2014.
